

We believe the simple fairness of this petition will serve to protect members of the public who have come to rely on our translator(s) as the only source in our rural area to provide FM signals. Our remoteness and distance from primary stations means our translator is the only service received by the majority of our county residents. We were recently subjected to a "turn down or shut down" demand by a valid Class A commercial station using our assigned (107.1) frequency. The displacement relief clause of subject petition is a fair and effective way to keep our translators in business and providing this service to the taxpayers who support our local translator district. Respectfully submitted, Boundary County Translator District.
